

3rd WaSiM user conference / 18 - 19 October 2017

Third Announcement & Call for Abstracts – REMINDER

The last WaSiM user conference took place at Technical University of Munich in 2014. Within the last two years WaSiM has been further developed and used by different institutions, in different scales and for different purposes. For instance, in the field of snow modelling new approaches (e.g. snow interception, fusion of snow and soil model including water and heat transport) were applied within WaSiM test versions and are intended to be implemented into the official WaSiM release versions. Furthermore, WaSiM is now used more frequent on high-performance computers and, therefore, demands certain adjustments of the model.

All these new developments of WaSiM give us an excellent opportunity to collect the different WaSiM experiences once again and to discuss the latest applications of WaSiM. Thus, the conference will offer the WaSiM community a possibility to discuss the recent applications of WaSiM, to provide bugfixes and to manage its further development. Additionally, it offers a platform for hydrologists for practicing, dialogue, discussion and getting-together.

Overview

The WaSiM user conference will take place **from 18th to 19th October 2017** at

Leibniz Supercomputing Centre (www.lrz.de)

Leibniz-Rechenzentrum der Bayerischen Akademie der Wissenschaften,
Boltzmannstraße 1, 85748 Garching (close to Munich), Germany

Course content and structure

On Wednesday afternoon (18.10.) and Thursday morning (19.10.) the participants will get the opportunity to inform themselves about different WaSiM applications during oral presentations. Furthermore, a poster session for presenting projects and studies related to WaSiM is intended. On Thursday afternoon it is possible to attend one of the round tables offered to special topics to discuss problems and specific applications like e.g. calibration strategies, snow modelling, soil parameterization, use of WaSiM on HPC or other.

Participation

The conference is open to WaSiM users of universities, research institutions, consulting engineers, water administrations and other interested persons. Beginners as well as professionals are welcome to this event. The conference language is English.

Organizers

- Department of Geography (Prof. Dr. Ralf Ludwig),
Ludwig-Maximilians-Universität München
- Chair for Hydrology and River Basin Management (Prof. Dr.-Ing. Markus Disse),
Technical University of Munich
- Hydrology Software Consulting (Dr. Jörg Schulla)
- Leibniz Supercomputing Centre

Costs

75 €, including evening event, coffee breaks and conference documents

Registration

To register for the conference, please send an email to florian.willkofer@lmu.de until **August 28th, 2017**. (Please use the registration form below)

Abstracts

Abstracts should be submitted to florian.willkofer@lmu.de until **August 28th, 2017**. We will inform you about the acceptance of your contribution (oral presentation/poster) until **September 4th, 2017**.

Accommodation

For accommodation 20 single rooms are available at the Motel One in Garching (close to station Garching, 68,50 EUR / night, inc. breakfast) from October 17th, 15h to October 19th 12h. If accommodation is desired, please make your reservation **until latest by September 10th** using the reservation code 533.162.818 as well as your credit card number and validity date via E-Mail (res.muenchen-garching@motel-one.com).

For further details and information concerning this conference please contact:

Participation Registration Form for WaSiM user conference 2017

Family Name (Prof./Dr./Mr./Ms.)	
First and Middle Name	
Affiliation	
Mailing Address	
Telephone Number	
Fax Number	
E-mail Address	
Do you want to give a (oral or poster) presentation ? (Abstract attached: max. 1 page)	
Special WaSiM Topic you are interested (for the "Round Table Workshop")	
Accommodation needed? (yes/no)	

Please send this registration form (incl. abstract) to
E-mail: florian.willkofer@lmu.de

Submission deadline is **August 28th, 2017**
